

Download theme

Unzip theme until see the files wpmu-bp-daily-1.0 (daily used as example it will have your theme name)

Using your FTP (file transfer) program of choice upload those files to your server like this screenshot:

Go to Appearance > Themes and activate theme (if using wpmu go to site admin > themes and enable)

Do you see your theme working?

YES

NO

1. CHECK YOU ARE USING THE RIGHT VERSION OF BUDDYPRESS / WORDPRESS / WORDPRESS MU FOR YOUR THEME
2. UNINSTALL ALL PLUGINS APART FROM BUDDYPRESS
3. CONTACT THEME SUPPORT ON THE FORUM WITH A LINK TO YOUR SITE AND A COPY FROM YOUR ERROR LOG
